

SWC 90 A

For 90° T-corners in circular cells with flat sheet piles

Installation

1. Please review the proper interlocking examples that are listed.
2. Thread the connector into the interlock while the sheet pile is out of the ground.
3. Adjust the connector to the appropriate position.
4. Tack or spot-weld the connector in place. Typically, a ~250mm (~10") weld, attaching the connector to the sheet pile to the top is sufficient.
